

# EUROPEAN PROJECT SEMESTER 2020

30 ECTS  
**EPS** INTERNATIONAL  
MULTIDISCIPLINARY  
GERMANY CAREER  
EXPERIENCE ABROAD II  
**EUROPE** TEAMWORK  
HORIZON INTERCULTURAL  
PROFESSIONAL BUSINESS SEMESTER  
KIEL SEASIDE ENGINEERING

Kiel University of Applied Sciences, the largest university of its kind in Schleswig-Holstein (northern Germany), started running its first European Project Semester in the summer semester of 2008. The EPS at Kiel University of Applied Sciences is hosted by the Faculty of Mechanical Engineering in conjunction with the Faculty of Business Administration, both of which organise the projects and provide support services and facilities.

Kiel University of Applied Sciences plays an important role both in the city and within the region. It attracts and supports incoming and outgoing specialist expertise in a wide range of industries: from diverse business services to heavy engineering, from computing to multimedia production.

## Why attend EPS in Kiel?

- Live and study in a famous maritime university city- with access to the Baltic and North Seas
- Become acquainted with (north) Germany: its culture, people, and many varied natural environments
- Participate in various excursions, educational visits and cultural activities, offered by the International Office and University faculties.

## Who can apply?

The EPS programme is open to all third year students who have a good working knowledge of English. This enables the students to participate effectively in and contribute to project teamwork and to follow lectures. Applications are welcome from the full range of disciplines. Students' applications must be received before 1st November for the spring programme starting in March.

## What we offer:

Initially, the Kiel EPS programme concentrates on a series of lessons and tutorials covering hard and soft skills, subject and project related topics. Lessons are from a mix of classic style to the more interactive (i.e. communicative) to the practical (incl. workshops). Tutorials continue throughout the semester, and each team is provided with a student, academic and business mentor/coach.

## Details:

- Project duration:  
**March – June, 2020**
- Max. five groups;  
20 - 25 students in total
- Language medium: English
- 30 ECTS
- Tuition fees: none
- Semester fees, including the public transport ticket: ~Euro 260
- Living costs, incl. accommodation:  
~ Euro 750/monthly
