EUROPEAN PROJECT SEMESTER

# STRUCTURE OF THE SEMESTER

## GENERAL INFORMATION ABOUT THE EPS

The **European Project Semester** is a 4-month program in English for Bachelor students in Engineering, Computer Sciences, and Business Management / Administration. The semester is a mixture of project work and courses, and the students collaborate in international and interdisciplinary teams. The courses include teambuilding, communication, project management, presentation skills and languages. The students' projects are initiated and completed in cooperation with local companies. Many of the students find it valuable to be an integral part of a real-world, hands-on project. EPS is offered by 17 providers in 12 different European countries.

» Period: March - June

» 30 ECTS

# EPS AT KIEL UNIVERSITY OF APPLIED SCIENCES (UAS)

## EPS AT KIEL UNIVERSITY OF APPLIED SCIENCES (UAS)

With around 7,000 students, Kiel UAS is the largest institution of its kind in Schleswig-Holstein. Six different faculties offer 38 programs leading to a Bachelor's or Master's degree. The campus is equipped with high-end laboratories and working spaces that provide a perfect working and learning environment.

The International Office and the Center for Languages and Intercultural Studies provide services, activities and language courses to international students to enable them to profit from their project semester in the best way possible.

# PROJECTS

## PROJECTS

Teams of students from different national, academic and professional backgrounds carry out EPS projects. The members are allocated to the different teams according to home study, project interests, nationality, personality and occupational analysis.

A close cooperation between Kiel UAS and companies from the region enables the students to work on a real project. Topics of the projects in Kiel mainly focus on issues of engineering, business and IT disciplines. Students from different academic and cultural backgrounds work together in teams to carry out real-world industrial projects in the fields of electrical and mechanical engineering, IT, shipbuilding and business administration. Local enterprises assign the actual project tasks. Working in international teams of 4-5 people, the students learn to cooperate and to communicate with each other at a professional, expert level. Moreover, they get to hone their presentation and negotiation skills. Each team is provided with a student from Kiel, an academic lecturer and a business coach.

# APPLICATION

## APPLICATION

»Requirements:

- nomination from one of our partner universities
- minimum stage of studies 3<sup>rd</sup> year of a bachelor's degree program
- good knowledge of English (B2 level)

»Applications must be received before the 1<sup>st</sup> November.

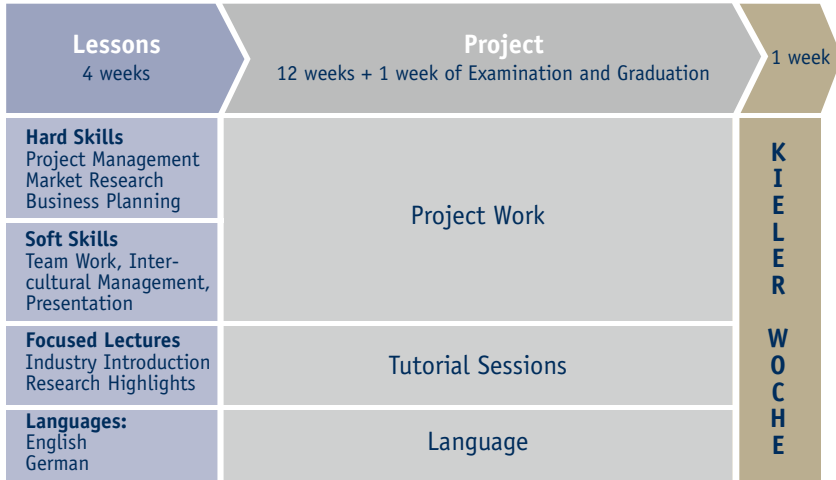

»Online application through our Mobility Online portal:  
[www.fh-kiel.de/exchange](http://www.fh-kiel.de/exchange)

»Acceptance letters and project proposals will be sent out in early December

# STRUCTURE OF THE SEMESTER

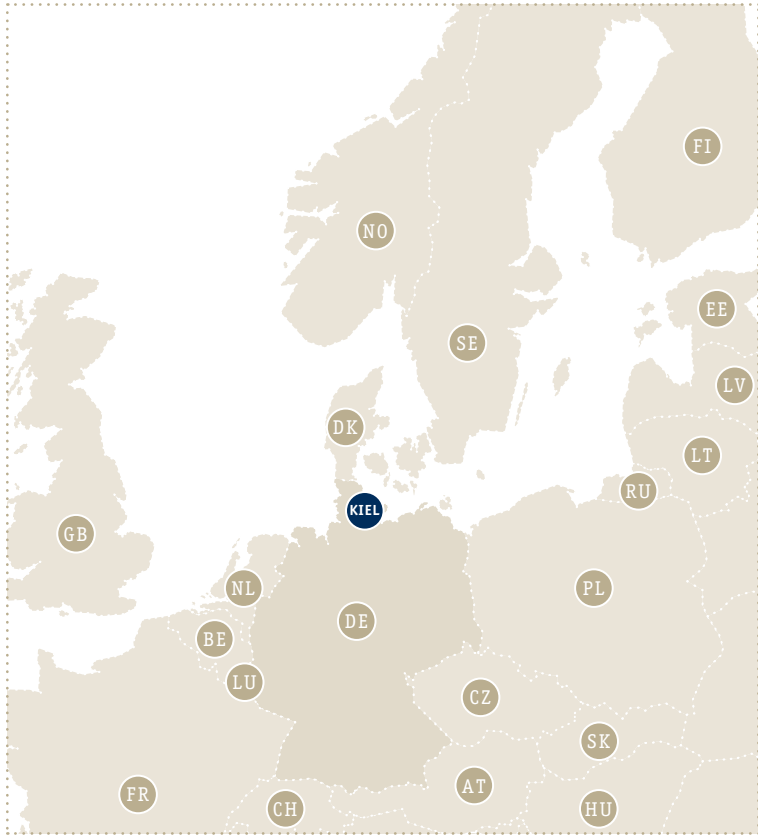

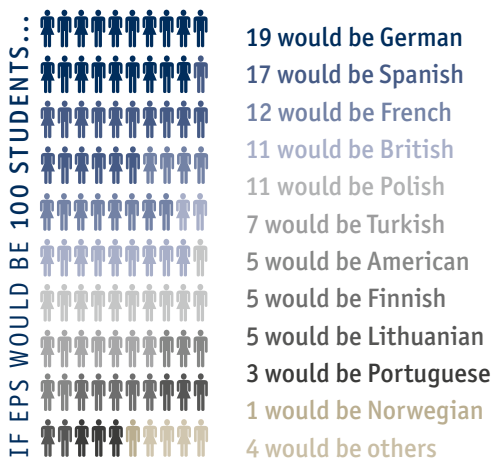

## KIEL AS THE HOST CITY

Kiel is the capital of Schleswig-Holstein, the northernmost federal state of Germany. One third of Kiel's 240,000 inhabitants study at one of the three public universities, making Kiel a young and vibrant city. Situated as it is on the Baltic Sea with its inner bay, called Förde, and close to Kiel Canal, Kiel has become one of Germany's major maritime centers. The city is well known for Kiel Week (Kieler Woche), the biggest annual sailing event worldwide and is an important port of call for cruise ships touring the Baltic Sea. Besides the wide variety of water sports facilities, including beautiful beaches, Kiel offers a large choice of affordable bars or restaurants.

-  Student housing: 200-350 € per month
-  1 l milk: 0,80€
-  Pizza: 7-8 €
-  Beer in bar (0,3 l): 3 €
-  Glas of wine in a bar (0,2 l): 4-5 €
-  Kiel has 8 beaches that can be reached with public transport
